

THE FAB FIVE

9th - 15th November

BORN 7 OCTOBER 2009

We spent our week exploring and learning new things. Every time we go out now we like to go a little further than we did the last time. It is neat to find new stuff - pine cones, branches, leaves, etc. are all interesting and cool. We are learning new skills, like climbing and walking on different things. We get to roam around the basement when we come in and cuddle with some of the big guys. They are really kind to us but we are careful not to get on their bad side. They are really funny sometimes and push us around with their noses. This week we got micro chipped and now we have our own unique number. Our humans here at Welgem did it and before we knew what was happening the event was all over. This week coming we are told we will be able to go into the big backyard to play. We are really looking forward to that adventure. Molly tells us there are some real fun things to do back there.

Ruthie and Cooper both have new homes and adopting families.

Stay tuned every Sunday for updates on the 'Fab Five' and their adventures...
