

THE FAB FIVE

23rd to 29th November

BORN 7 OCTOBER 2009

Every time we think we are finished with training the humans give us more. Gosh it never ends. This week we got some real intense stuff with leashes. Remember last week we only just got introduced to them - well this week we got to see them every day. You will see them on us in the video. We spend a lot of time outdoors and really like to explore everything. We had visitors during the week. Everyone says how cute we are. We try to behave ourselves when the humans have company but it is not easy as we like to show off. Some of us are getting our kit ready for going to our new homes this coming week. We don't own much but we want to make sure we have everything in order - you know toys and stuff. Ruthie and Leroy get to travel in a big plane to Vancouver while Cooper says he wants to continue being a Yukoner. We are all going to miss each other. Leon and Tony don't have new families yet so they get to stay with the big guys and continue to learn new stuff. We will also be getting our firsts DA2PP shots on Tuesday.

We are pleased that you took the time to visit with us and also join us in our adventures each week. The humans say they will continue with Leon and Tony's visits on the website.

Stay tuned next Sunday with Leon and Tony as their adventures continue...
