

THE FAB FIVE

7th - 20th of December

BORN 7 OCTOBER 2009

There sure has been a lot of stuff going on in the house these past two weeks. The humans have been putting all kinds of weird things up all over - including outside things like a tree. These humans sure are strange. People keep saying things like Merry Christmas and stuff - we have no idea what they are talking about. The big guys say it is real neat this time of the year as you get stuff and the humans let you play with paper that was under the tree. We like going outside and when it is warm enough we can be found in the big yard with the adults for up to six hours a day. We sure are tired when we come in and really enjoy our naps by the fire.

The big news for us is we have new families that we will be going to in January. We are already making sure that all of our belongings are ready for packing. We don't want to leave anything behind. We are getting real good at climbing the stairs now and really enjoy chasing the big guys and each other. That is a lot of fun. We have lots of balls to play with and stuffies that are hung in the basement that we bat around.

We want to wish everyone a very Merry Christmas because we are told that is what you say this time of the year. So Merry Christmas. We will back after the holidays.

Stay tuned to the 3rd of January when the adventures of Bentley and Lopez will continue...
