

## THE FAB FIVE

30th November to 6th  
December

Born 7 October 2009

Well we are now just two - Leon and Tony. Ruthie and Leroy left for Vancouver on Friday morning and Cooper departed on Saturday. We hear that they have adapted extremely well and are enjoying their new families. Boy it sure was quiet Saturday night with just the two of us. We did manage to play though and we enjoy each others company. We have moved from the nursery to another location downstairs. The big guys wanted their room back (the humans call the room Corgi Condos). Where we are now we get see everything going on downstairs and our crates are great for taking naps and stuff. It has been cool this past week with temperatures dipping below -20'C. It is neat when we come in as the humans have a nice warm log fire going that we crash in front of with the big guys and get toasty warm. Every day this week we all went on long walk-about around the property. It is fun and we get to explore lots of new things. The big guys keep a real close eye on us and at least one of the humans are with us all the time.

The humans say they will continue with Leon and Tony's visits on the website every second week. So our next visit will be the weekend of the 20th - the weekend before Christmas.

Stay tuned to the 20th with Leon and Tony as their adventures continue...
